Connecting Families  
to a Healthy Future

### A Tribute to our Cofounder

Kevin Keogh believed in people with more conviction than they often believed in themselves. He saw their potential, promoted and coached them in their successful careers at the City of Phoenix. He also cared deeply about

family, friends and people he knew and liked. He wanted to help them make a difference in the community and in their lives. 15 years ago when I decided to start a charity to help women and their children obtain affordable healthcare and achieve self-sufficiency, he was 100% on board.

Kevin was the CFO for the City of Phoenix and, because he was a willing board participant, our founding board members were easy to find. The majority came from insurance companies, hospitals and healthcare industries. After his death I was proud to name our charity “Keogh Health Connection”.

Kevin loved life, his dogs, jazz, family, friends, and helping people make a difference in their lives and in the community. Because of Kevin, the Keogh Health Connection had a remarkable start.

We all thank you, Kevin. We love you and miss you.

God bless you

A handwritten signature in cursive script that reads "Karlene Keogh Parks".

Karlene Keogh Parks
